TO: NASA/SSC Employees  
FROM: AA00/Director  
SUBJECT: Key Personnel Announcement

It is my pleasure to announce that Dr. Richard J. Gilbrech has been named to the position of Associate Director of the Stennis Space Center. Rick is returning to NASA and Stennis after having served previously as Associate Administrator for Exploration Systems Mission Directorate at Headquarters, and as Center Director for Stennis.

Rick's experience and devotion to NASA will certainly prove to be invaluable to Stennis and the Agency. He will be joining the team in the early May timeframe. I solicit your support in welcoming Rick back to the Stennis family.

A handwritten signature in cursive script, appearing to read "Gene".
